Glosario Del Banco Mundial World Bank, 1996 This edition of the World Bank has been revised and expanded by the Terminology Unit in the Languages Services Division of the World Bank in collaboration with the English, Spanish, and French Translation Sections. The Glossary is intended to assist the Bank's translators and interpreters, other Bank staff using French and Spanish in their work, and free-lance translator's and interpreters employed by the Bank. For this reason, the Glossary contains not only financial and economic terminology and terms relating to the Bank's procedures and practices, but also terms that frequently occur in Bank documents, and others for which the Bank has a preferred equivalent. Although many of these terms, relating to such fields as agriculture, education, energy, housing, law, technology, and transportation, could be found in other sources, they have been assembled here for ease of reference. A list of acronyms occurring frequently in Bank texts (the terms to which they refer being found in the Glossary) and a list of international, regional, and national organizations will be found at the end of the Glossary.

Go Ask Alice Anonymous, 1999-07-13 A teen plunges into a downward spiral of addiction in this classic cautionary tale. January 24th After you've had it, there isn't even life without drugs... It started when she was served a soft drink laced with LSD in a dangerous party game. Within months, she was hooked, trapped in a downward spiral that took her from her comfortable home and loving family to the mean streets of an unforgiving city. It was a journey that would rob her of her innocence, her youth—and ultimately her life. Read her diary. Enter her world. You will never forget her. For thirty-five years, the acclaimed, bestselling first-person account of a teenage girl's harrowing descent into the nightmarish world of drugs has left an indelible mark on generations of teen readers. As powerful—and as timely—today as ever, *Go Ask Alice* remains the definitive book on the horrors of addiction.

Making Finance Work for Africa Patrick Honohan,Thorsten Beck,2007 Drawing on its extensive experience in helping restructure and reform financial systems, the World Bank examines the state of African domestic financial systems in a global comparison. It identifies promising trends as well as pinpointing the major shortcomings that are observed across sub-Saharan Africa. Policy recommendations distinguish between those designed to make finance a more effective driver of economic growth and those designed to give low income, small-scale and other excluded groups better access to financial services.

Fantasia, an Algerian Cavalcade Assia Djebar,1993 In this stunning novel, Assia Djebar intertwines the history of her native Algeria with episodes from the life of a young girl in a story stretching from the French conquest in 1830 to the War of Liberation of the 1950s. The girl, growing up in the old Roman coastal town of Cherchel, sees her life in contrast to that of a neighboring French family, and yearns for more than law and tradition allow her to experience. Headstrong and passionate, she escapes from the cloistered life of her family to join her brother in the maquis' fight against French domination. Djebar's exceptional descriptive powers bring to life the experiences of girls and women caught up in the dual struggle for independence - both their own and Algeria's.

Muntu in Crisis Fabien Eboussi Boulaga,2014 How could Muntu, that is the human being in the African condition,

initiate a practice of philosophy that assumes and testifies to the singularity of the African situation today and assert himself as subject and object of his parole? Under which conditions can his practice of philosophy be a praxis of liberation? These are the fundamental and existential questions at the heart of 'Muntu In Crisis.'

Educational Handbook for Health Personnel J.-J. Guilbert, 1987 The sixth edition of an educational handbook revised and updated in 1992 that has become a standard text for training teachers in the health sciences. Unorthodox in its approach, the book challenges teachers to increase their skills so as to make learning easier for students. To this end, readers are given a task-oriented exercise in self-learning that can help them rethink attitudes, reorient teaching objectives, and then master the appropriate skills. The importance of producing graduates who are able to respond to community and individual health needs is repeatedly emphasized. The book features five main chapters covering educational objectives, evaluation planning, program construction, test and measurement techniques, and the organization of an educational workshop. Within each chapter, theoretical information is presented and followed wherever appropriate by exercise sheets. Such a format makes it possible for the reader to skip and select, test, and choose according to his individual interests. Though most practical examples pertain to the medical and nursing professions, the handbook has also enjoyed wide use in teacher training for the dentistry, pharmacy, and sanitary engineering professions.

Guidelines on Hepatitis B and C Testing World Health Organization, 2017 Testing and diagnosis of hepatitis B (HBV) and C (HCV) infection is the gateway for access to both prevention and treatment services, and is a crucial component of an effective response to the hepatitis epidemic. Early identification of persons with chronic HBV or HCV infection enables them to receive the necessary care and treatment to prevent or delay progression of liver disease. Testing also provides an opportunity to link people to interventions to reduce transmission, through counselling on risk behaviors and provision of prevention commodities (such as sterile needles and syringes) and hepatitis B vaccination. These are the first WHO guidelines on testing for chronic HBV and HCV infection and complement published guidance by WHO on the prevention, care and treatment of chronic hepatitis C and hepatitis B infection. These guidelines outline the public health approach to strengthening and expanding current testing practices for HBV and HCV, and are intended for use across age groups and populations.
